

# MIKE FOR MAYOR

Galime '23

## Campaign Chronicles

Volume 2 • April 28, 2023

### Committed To Utica

Mike Galime is a 43-year old, married, father of two, fulfilling his life in Utica. With eight years of experience as Council President, a strong acumen in business and management, and a lifetime history of community contributions, Mike is ready to be the next City of Utica Mayor.

#### Experience & Knowledge:

With 20 years of private sector experience across personnel & project management, engineering, marketing, and business development, combined with current relevant government experience as the Common Council President, I am ready to lead the city. Working with the administration on the Board of E & A, with the departments and community leading the council, and through direct constituent services. I have the first-hand knowledge that is necessary to maintain functions and relationships that need to remain stable in the city. I will also maintain laser focus while implementing new policy actions where the city needs measurable improvements.

#### Ready to Lead: Working for the People

When I make a commitment, I keep it. In my marriage, with my children, in my career, and in my current service to the city and other community boards and organizations, I pride myself on integrity, perseverance, professionalism, and accountability. After eight years of dedicating countless hours to the city as Council President, I am ready to take the next step in fulfilling the role of Mayor. As your Mayor, I will forge a new path, bringing fresh management, renewed vision, and newfound professionalism to our city.

#### Connected to Utica

Utica filled my childhood with time in our parks, classes at Munson, musical performances, involvement in our local feasts and festivals in La Banda Rosa, and topped it off with a top tier education from Utica Public Schools. Currently serving as a Vice President on the board of the Stanley Theatre, on the board of the philanthropic arm of the Arc-OLC, as well as coaching minor league baseball for Utica Little League, I have our community to thank for these opportunities. To all who call our city home, now and in the future, thank you.

#### Neighborhood Preservation:

Our neighborhoods have been overlooked for too long. Utica is bigger than Genesee Street. While we cannot lose focus on finishing projects that have been started and continuing on our path of reinvigorating the Greater Utica Area from within our City core, each of our districts and the blocks they contain are unique, and provide part of the personality and purpose for people to either remain or become rooted in our City. Each neighborhood deserves attention to detail – along with a recognition and appreciation of why people wake up and call their block home.

You are cordially invited to support

## MIKE FOR MAYOR

Galime '23
