

MIKE FOR MAYOR

Galime '23

Campaign Chronicles

Volume 6 • September 29, 2023

I was raised in our city, playing on our streets, and taught by our schools. I've built my life and career here, and as Mayor, I want to ensure each generation has the opportunity to do the same. We are a community of culture. A place to raise a family. A city of children, parents, and grandparents. Whether it's art, food, music, the heritage of your personal upbringing and homeland, or simply your trade, we are a city of resilient people who live and work together.

We've focused tons of our time on downtown. The city is in a better place now and moving faster than it has in decades, but we've lost our focus on our neighborhoods. Our future depends on public safety, securing our schools, maintaining our infrastructure, how we prioritize public works, and the way we communicate, interact with, and bring together our residents, businesses, and community organizations.

Throughout this campaign I've discussed the importance and need for Public Safety. My conviction to safe, clean, and secure streets, schools, and neighborhoods, as well as an engaged youth are reflected in the support I've received.

I have the endorsements of the Utica Police PBA, Utica Fire IAFF Local 32, Teamsters 294, the NYS Troopers PBA, and ITEA Local 1. This is the result of my continued work with Public Safety & Public Works as Council President, and the recognition that as Mayor, my policies will support the city through strong Public Safety, while we keep focus on moving Utica into the future for generations to come.
